

Tiffin Metal Products Co.'s steel Weapons Rack can be customized to accommodate a wide variety of arms storage. The Weapons Rack can be configured to secure M4, M9, M16A2, M870, AR series weapons and more. Similar to the Military Field Gear (TA-50) Locker, the Weapons Rack is welded and constructed of heavy gauge steel.

FEATURES:

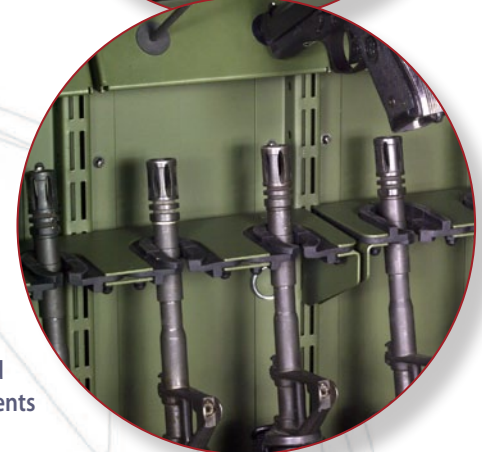

- A wide variety of interchangeable adjustable weapons mounts
- Pins for securing interior components in place
- Perforated doors and sides for easy inventory viewing
- Retractable bi-fold doors
- A dependable door locking mechanism
- Optional side handles for mobility
- Durable powder coat finish

Custom sizes and interior configurations available

Unit shown is 42 1/4" W x 16" D x 45" H

Shown with rubber barrel grips to hold long arms in place and pistol holder components
