RE: Salt City Records

Dear Matt:

It is my pleasure to recommend the firm of Salt City Records (2675 West 2365 South, Suite # 3, West Valley City, UT) to you for the Public Safety Complex Construction project. I worked with Dustin Walker, Shelving Specialist and I am happy to recommend his company to you. He was very informative and helpful to us. Dustin designed the high density storage to meet our needs, as well as supplied me with information on how to set up the files for this type of filing system. He matched competitor prices on the supplies. Ryan from their staff assisted him in moving our "Times 2" storage from the Courthouse to our new location and installed a second "Times 2" unit beside it. My staff and the building maintenance department were also trained by Dustin on how to make adjustments to the shelves.

I hope that this recommendation will help you with your decisions regarding the high density storage for your new offices.

Sincerely,

Tamra Stones
