

Pricing Surcharge

Our steel supplier has informed us that an additional steel surcharge is in effect immediately; this will result in an adjustment to our existing surcharge of 7%.

Effective **October 20, 2004**, there will be the following surcharges in effect:

Aurora Shelving will have an additional 8% surcharge for a total surcharge of 15%.
Aurora Mobile will have an additional 3% surcharge for a total surcharge of 10%.
Times-2 will remain at the current 7% surcharge.

All orders entered prior to October 20, 2004, must ship by December 23, 2004, after which the plant is closed for the seasonal holiday. Purchase Orders received on or after October 20, 2004, must reflect the new surcharges as a line item on the net price of the order. All order acknowledgement copies will include this increase.

Quik-Quote will be modified to incorporate the new surcharges. Since these surcharges are pass through costs, we highly recommend that dealers do not place an additional markup on the surcharges in order to stay competitive in the marketplace.

All outstanding quotes will be honored at current pricing and discounts until October 19, 2004.

I regret that we have to take this action. I would like to thank all of our customers for their understanding and continued support.
